

Wood Partners to construct Alta Glenridge Springs apartment community in Georgia

Published: 19-Jul-2010

Wood Partners has purchased a 2.5-acre site in Sandy Springs, Georgia to construct Alta Glenridge Springs, an upscale, 168-home apartment community.

The 205,000 square feet mixed-use project will include 175,000 square feet of residential space and 20,000 square feet of retail space. The building will complement an existing office building adjacent to the site.

Located near the intersection of Interstate 285 and Glenridge Drive in the city of Sandy Springs, Alta Glenridge Springs will consist of one-, two- and three-bedroom apartments, featuring open floor plans, granite countertops and high-end appliances and cabinetry.

The units will include many luxury amenities such as a pool with an outdoor kitchen, a fitness center featuring a separate cardio theater, a clubroom with Wi-Fi access and a gaming room with a Wii console. It will also have many other facilities like restaurants and laundry.

The project is expected to be completed by mid 2011.
